PROFILE

Enthusiastic Junior Web Developer with a solid foundation in HTML, CSS, JavaScript, and React. Driven by a curiosity to further explore both the technologies I'm familiar with and those I've yet to encounter. Committed to continuous growth in my development skills.

SKILLS

TECHNOLOGIES

- HTML
- CSS
- JavaScript
- TypeScript
- React (Next.js)
- Bootstrap
- Tailwind CSS
- SQL
- C#

TOOLS

- Azure DevOps
- GitHub
- Jira
- Postman
- Figma

EXPERIENCE

SOFTWARE DEVELOPER INTERN

CodeStack, Jun 2023 - Aug 2023

- Worked in an agile environment, participated in daily stand-up meetings, sprint planning, and retrospectives.
- Conducted code reviews and received feedback from senior developers to improve coding practices and maintain code quality.
- Developed reusable components resulting in a decrease in redundant code and improving development efficiency
- Investigated and fixed software bugs, enhancing the stability and reliability of the application.
- Resolved accessibility issues in the web application, ensuring compliance with WCAG guidelines.

PROJECTS

WEATHER APP

- Built using Next.js, 3 APIs, and styled with Tailwind CSS
- Displays current weather and five-day forecast based on geolocation
- Ability to search for weather information at a particular location
- Ability to favorite a location and have it be saved for future sessions

ROCK PAPER SCISSORS LIZARD SPOCK

- Interactive web game that allows one to play the classic rock paper scissors but with a twist
- Built using HTML, Tailwind CSS, and JavaScript
- Ability to play against a computer or another player locally

STUDENT

CodeStack, Sep 2023 - Aug 2023

- Successfully completed an intensive 12-month long coding program, demonstrating a strong commitment to learning and acquiring practical coding skills.
- Collaborated within a group on multiple projects, simulating real-world development scenarios.
- Explored cloud computing services (e.g., AWS, Azure) to deploy and host web applications, gaining experience with serverless and containerization technologies.
- Effectively coordinated with team members by leveraging project management tools such as Jira for task tracking, issue prioritization, and project planning, while utilizing Git for version control to streamline collaboration and code management workflows.
- Developed web applications using HTML, CSS, JavaScript, and React, resulting in user-friendly interfaces and seamless user experiences.
- Presented projects to a panel showcasing coding skills, project achievements, and versatility as a developer.
- Participated in the H20 Hackathon, honing JavaScript skills and collaborating on time-sensitive challenges.
