◎ Stockton, CA

Summary

Enthusiastic Junior Web Developer with a solid foundation in HTML, CSS, JavaScript, and React. Driven by a curiosity to further explore both the technologies I'm familiar with and those I've yet to encounter. Committed to continuous growth in my development skills.

Skills

Technologies
- HTML
- CSS
- JavaScript
- React (Next.js)
- Bootstrap
- Tailwind CSS
- SQL
- Prisma
- Supabase

Tools
- Azure DevOps
- GitHub
- Jira
- Postman
- Figma

Projects

Weather App

Rebuilt using Next.js and styled with TailwindCSS. Showcases current weather, a five-day forecast, and the functionality to favorite and search locations by pulling data from two separate APIs.

Synapsis

A Next.js and Tailwind CSS powered blog concept featuring animations, hover effects, and a responsive design for an exceptional cross-device user experience.

Rock Paper Scissors Lizard Spock

An interactive web app built in React, styled with Tailwind CSS, offering an upgraded version of the classic Rock Paper Scissors game, including the choice to play against either a computer or another player.

Work Experience

Student
CodeStack Academy, Sep 2022 - Sep 2023
- Collaborated within a group on multiple projects, simulating real-world development scenarios
- Leveraged RESTful APIs, Azure Computing Services, and Git to coordinate with team members effectively
- Developed web applications using HTML, CSS, JavaScript, and React, resulting in user-friendly interfaces and seamless user experiences

Software Developer Intern
CodeStack, Jun 2023 - Sep 2023
- Worked in an agile environment participated in daily stand-up meetings, sprint planning, and retrospectives
- Developed reusable components resulting in a decrease in redundant code and improving development efficiency
- Resolved accessibility issues in the web application, ensuring compliance with WCAG guidelines.
